FLEXmax 100

100A CHARGE CONTROLLER FROM OUTBACK POWER

Class Leading Features

- Highest voltage input, power output combination for a 100A charge controller
- Environmentally-sealed outdoor-rated IP54/type 3R enclosure
- Single fan active cooling with passive backup
- Fully NEC 2014 compliant with OutBack FLEXware ICS Plus

Cost Saving Benefits

- Allows for longer series stringing of modules
- Reduced balance of system components:
  - No fused combiners
  - Smaller gauge wire
  - Integrated GFDI and fast self-discharge circuitry
- Increased energy harvest via 100A output
